FRP is a jewel that could generate public groups to care for it, i.e. "Friends of FRP." At this time, there are no such groups for FRP or any of our parks. Need to follow up on this idea, perhaps by celebrating the owls, or the fish...perhaps a business could adopt the park?

Ruth spoke with Bart regarding the problem of nonpermitted commercial signs placed around Bloomfield. Bart said such signs may be removed and placed next to city dumpsters or waste bins for disposal.
