

**Conservation, Energy, & Environment Committee (CEEC) Report
Public Health, Safety & Environment Subcommittee, September 10, 2025
Submitted by Paula Jones, Chair, CEEC**

The CEEC did not meet in August; our next meeting is tomorrow September 11, from 4:30 to 6 pm. (Hybrid meeting - Conference Room 5 in Town Hall and via Zoom).

Please let residents know that our Fall Shred Day will be on November 8th, 9 to noon. Small Electronics recycling will also be available. **The location will be the Bloomfield High School parking lot.** This is same location where the event was held last Spring.

Bloomfield is participating in National "Sun Day" activities. "Sun Day" is on Sunday, September 21st, and the objective is to engage the community in celebrating clean energy. CEEC member Claudia Gwardyak will be conducting a "Sun Day Storytime & Craft Time" for preschoolers on Wednesday, September 17th, at the McMahon Wintonbury Public Library.

Additionally, Ms. Gwardyak is working with the Town on a drop-in event at the Town Hall Parking Lot on Saturday, September 20, from 10 to noon, where people can talk to fellow residents about their experiences with solar panels and electric vehicles.

The state-wide Sun Day event will be on Sunday, September 21, at Central CT State University, from noon to 4 pm. Please share the attached flyer on the next page for details on what promises to be an educational and fun event.

Paula Jones, Chair
Conservation Energy & Environment Committee

Connecticut **SUN DAY** Festival

Come together with communities from across Connecticut as we celebrate the unstoppable rise of clean, renewable energy.

Sunday, September 21, 2025
