**HPL WOOD SIDING**  
FRONT VIEW

**PARKLEX PRODEMA NATURSIDING-W**

NATURSIDING-W factory-machined slats allow you to install a wood siding without the need for maintenance. They are composed of a high-density bakelite body, treated wood veneer based on synthetic resins on the surface and an outer film that provides greater durability to the panels and protects them from solar radiation, atmospheric agents and dirt.

PROPERTIES:

- Maintenance-free HPL wood
- Factory-machined slats
- PEFC-certified raw material
- Resistance to extreme atmospheric agents
- UV-ray resistant tone

(a variety of color available)

PRODUCT EXAMPLE PROJECTS:

private resident in Varese, Italy

Harry Parker Community Boathouse, Cambridge, MA

Frank Bartlett Memorial Library, Moe, Australia
