POLICY MEMORANDUM

SUBJECT: Tax Incentive Options NO: 110.03
Date: September 22, 2017
Amended: September 25, 2017
DISTRIBUTION: Town Council By: Town Council & Town Manager

APPROVED: October 9, 2017

I. PURPOSE

The purpose of this policy is to establish procedures for tax incentive programs in the Town of Bloomfield pursuant to Section 12-65b of the Connecticut General Statutes as may be amended from time to time. We believe that Bloomfield has attractive location and economic infrastructure advantages necessary to attract business and industry without tax incentives. We are, therefore, committed to offering such incentives to those who best advance the intent of these guidelines.

II. OBJECTIVES

1. Fiscal -To increase and maintain the commercial and industrial tax base to a level at or above 50% of the Town’s Grand List in order to facilitate the Town’s capacity to provide necessary services and infrastructure.
2. Employment –To decrease the Town’s unemployment rate by providing quality employment opportunities with good wages and benefits for the Town’s residents.
3. Encourage Business Retention and Growth – to support existing businesses and encourage their retention and meet their expansion needs in Bloomfield.
4. Sustainable and Quality Economic Development – to encourage the incorporation of alternative energy and green technology into commercial building design.
5. Targeted Sectors – To encourage development in areas and business sectors that have been identified by the Town of Bloomfield as priority areas.

To further these objectives the Town of Bloomfield may enter into agreements to provide for a temporary abatement of the increased assessed value of the real property portion of a proposed project if the criteria listed below are met. Eligibility for tax incentive options shall only apply if improvements are for at least one of the uses provided for in Connecticut General Statutes Section 12-65b as it may be revised from time to time.

Any final decision to grant and to establish the terms of agreement of a tax abatement incentive pursuant to this policy shall be within the sole discretion of the Bloomfield Town Council.

III. Abatement Criteria and Adjustments

The Town Council shall consider the following factors in deciding whether to pursue the offering of property tax incentives on a case by case basis:

- A) Economic benefit – The proposed project must positively enhance the Bloomfield economy. Factors to be considered in determining economic benefit shall include but not be limited to: the amount of capital investment, whether the project produces value added products and services, and whether the project provides positive fiscal and economic benefits that outweigh any projected increase in costs to the Town as a result of the project. Applicants shall provide a cost-benefit analysis in a format that is acceptable to the Town.
 - B) Wages - Consideration shall be given if the project demonstrates that it is paying wages that exceed the median wages for similar positions in the Hartford labor market area. Any request for tax abatement should be accompanied by a list of representative jobs and a corresponding wage scale.
 - C) Employment – The Town Council will take the following goals into consideration in their review of an application for a tax abatement:
 - 1. that a minimum of 20% of the permanent new jobs created will employ Bloomfield residents.
 - 2. that a minimum of 10% of the construction value of a project will be conducted by minority* contractors that have their physical base of operations in Bloomfield or whose principal is domiciled in the Town of Bloomfield.
 - 3. that the permanent workforce will be comprised of a minimum of 20% members of minority* groups.
- * Minorities for purposes of this incentive shall be as defined by Federal Guidelines
- D) Types of Businesses – If the project will be of a type that has been identified by the Town Council as desirable to stimulate the local economy and provide an overall positive impact on the quality of life for Bloomfield citizens. To meet this goal the project should involve one or more of the targeted industries as identified by the Town Council.
 - E) Increase the existing tax base – Incentives will be considered for businesses that invest in new buildings or building expansions. Tax abatements will be limited to the tax on the increased assessed value of a property that is directly linked to new investment. Property taxes on existing land and facilities will not be reduced for new development projects.
 - F) Sustainable Design –Consideration shall be given when a new building or addition is designed to incorporate alternative energy and green technology above and beyond best management practices.

IV. Definitions

The following definitions will be used in determining the terms of the abatement and the required level of capital investment:

- 1. An existing business is one that shall have had facilities and operations in Bloomfield for at least one year immediately prior to a request for consideration.

5.
