TOWN OF BLOOMFIELD

POLICY MEMORANDUM

SUBJECT: Public Art Policy

NO: Policy # 110.10

DATE: September 8, 2020

AMENDED: 

BY: Bloomfield Town Council

APPROVED: January 25, 2021

I. INTRODUCTION

An overarching goal for the Town of Bloomfield is to develop a distinctive sense of place, both physically and culturally. To that end, the Town proposes to enhance appropriate diverse and attractive physical spaces with rich varied cultural and educational art installations. This goal can be achieved in part by promoting a robust public art program. Through such a program, the Town will be able to maintain, foster, and enhance its unique character, which will, in turn help to attract new residents and businesses to the community.

Public art and architecture can serve as a cultural gateway to the Town, enlivening its streetscapes while increasing its local and national identity as a residential, historical and economic destination. Well-placed works of art help introduce the Town to those who visit it and patronize its businesses. Public art serves as a way finder for a particular business, intersection, street, or building. For Bloomfield residents, art can add to their visual quality of life as they go about their daily routines.

For businesses looking for a place to locate, public art indicates to them that the Town promotes a robust civic life, signaling a good environment to locate a profitable business. Thus, public art stimulates economic growth, so it is a good investment for the Town and has relatively low overhead and staffing costs.

In addition, public art assists in carrying out the Town Council’s initiative “to encourage, promote and provide opportunity for artistic expression within our Town.”
