---

On 02/03/2022 at 10:48 am, BPD Officers responded to a medical call at the Bloomfield High School. Upon arrival a 16 Y.O. student was located in the security office suffering from an apparent drug overdose (suspected marijuana laced with fentanyl). Officers and school staff provided first aid to the student to include administering multiple doses of “Narcan” (Naloxone HCI), to help reverse the effects of a potential opioid overdose. The student was subsequently transported to the CT Children’s Medical Center (CCMC) for further medical evaluation. The investigation remains active.
